# Our CACAO NATIVO

In the Alto Huayabamba valley, we've discovered around fifty native cocoa varieties that are called cacaos "Nativos".

These cacaos are very rare, still largely unknown, and are characterised by their great aromatic diversity.

We investigate and preserve these unique varieties by cultivating them on our small farms, and by crafting a very exclusive chocolate out of these beans.

Every autumn, we create a limited edition chocolate: the Nativo Box. A worldwide unique chocolate creation that tastes differently from year to year and surprises with its unique aromas.
